TPMM Veg Polisher

Quality Handling Equipment

**Up to 15tph capacity - All stainless steel - No belts - No sprockets - No chains
Quick change brushes - Low maintenance - Unique 'Rock 'n Roll' movement**

**Direct drive - each brush has a shaft mounted motor so there is no stress
Independent fingertip control for speed of rock and speed of roll - ultimate control over crop polishing
Easy access to all moving parts for swift easy and inexpensive maintenance**

Polishers are part of a comprehensive range of quality vegetable handling equipment from Tong Peel Engineering
